Hi [REDACTED] team,

Thanks for checking with us — we come bearing statements! It was certainly a whirlwind of a weekend, and we appreciate that you are welcoming the conversation with PTA leaders on these matters.

Talking points:

- We recognize there has been a lot circulating in the press. TikTok has heard the outpouring of support these past few days from our community and we've been incredibly inspired by their extraordinary spirit and resilience over the course of this challenging year. TikTok is here for the long haul.
- We are continuing to do what we have always done: stay true to our mission, serve our community, and protect the safety and privacy of our users. These are the facts: 100M Americans come to TikTok for entertainment and connection, especially during the pandemic.
- TikTok's biggest investors come from the US.
- **On supporting & building our US presence:** TikTok has hired nearly 1,000 people to our US team this year alone, and is proud to be hiring another 10,000 employees into great paying jobs across the US. TikTok's \$1B creator fund supports US creators who are building livelihoods on our platform.
- **On data & security:** TikTok US user data is stored in the US with strict controls on employee access. We are committed to protecting our users' privacy and safety as **we continue working to bring joy to families** and meaningful careers to those who create on our platform.

In addition, please share the link to [REDACTED] reassuring message to the TikTok community. [REDACTED] is TikTok's US General Manager: <https://www.tiktok.com/@tiktok/video/6856014780440874245>

If there are any specific questions that come up that you don't have the answers to, just shoot us a note.

Warm regards,

>
> I think our leaders recognize that these tough headlines are going to come and go with all our sponsors, especially in tech, so we're not especially panicked at National PTA by the current chatter. That said, we would appreciate being given clear talking points when the headlines are this volatile so we can be aligned on message when our field asks questions (which is starting to happen; several board members have emailed our executive director to ask if we are "clear on message").
