Task

Investigate account deletion type

Assigned to Due date

Description

Currently, we received 300k~500k account deletion request per day. And we want to make sure only users who really want to delete account submit the deletion requests. To do so, we will have two projects:

1. Add a pre-check system to remind all tasks needed to be completed before deletion.

2. Add questionnaire to ask why users want to delete account
<https://bytedance.feishu.cn/docs/doccnLj9aM1jxqo5s9hOcVnOMic>

For 1, need DA to help find: how many tasks that account deletion requesters averagely have?

For 2, need DA to help conduct a research on the reason based on the account type, user activity in-app like post, vv, duration, etc.
