>here's the good news: there is a SIGNIFICANT amount of work that has been done in the last 3 months (most notably preventing unconnected adults from messaging minors -- DM is overwhelming majority of this abuse) and we have strong reason to believe the defaults launching will have a tremendous positive impact as well as the other 4-5 measures launching in the next two months

Karina Lynn Newton (5/12/2021 17:50:24 PDT):
>without having internal data but seeing thorn's, i am concerned that those most victimized are of an age that shouldn't even be on ig. that's both depressing and also a reason why i think it's vital that a different way of thinking about under 16 year olds in particular is so critical
