[REDACTED] (3/13/2023 02:54:09 PDT):
>looks like CS use case for MaXa is
>
>1) E2EE resilient detection: "We developed a new strategy for Child Safety signals, and executed against it successfully by launching the new Child Safety Account Score (powered by MaCSA) using the Quality Scorecard to monitor impact to voice and proportionality."
>2) precision/protect voice: "We shifted from enforcing the disable/strike policy from Virality to account level signals of malicious behavior, powered by MaCSA. This will reduce the number of CEI UFAC enrollments from 7.1k to 2.9k, a ~60%"

[REDACTED] (3/13/2023 02:54:31 PDT):
>is this from their lookback?

[REDACTED] (3/13/2023 02:58:06 PDT):
>yeh

[REDACTED] (3/13/2023 02:58:13 PDT):
>> This will reduce the number of CEI UFAC enrollments from
>did this land?

[REDACTED] (3/13/2023 02:58:34 PDT):
>> E2EE resilient detection
>
>when they say this, it means they are just not looking into messages

[REDACTED] (3/13/2023 02:58:49 PDT):
>it's not like a big thing imo, they are just trying to sell it as E2EE resilient

[REDACTED] (3/13/2023 03:02:25 PDT):
>I think this is for Antigone
>
>when we are asked by regulators/industry etc to answer to how we still ensure the safety of young people on our platforms with things like ePD that we have a good answer and its not just "oh well we cant see messages so we cant do anything" i think this is the sell for being 'industry leading' / operational on the maturity framework

[REDACTED] (3/13/2023 03:26:23 PDT):
>are you on this/ have thoughts?
>
>"Sigma NAWI discussion. TL;DR If NAWI agrees sextortionists are abusive under their current definitions, we can re-use their entire workflow for measurement (including ops review)."

[REDACTED] (3/13/2023 03:26:54 PDT):
>i want you to be driving what protect voice means for us and how we think about it in shitty aareas

[REDACTED] (3/13/2023 03:27:07 PDT):
>yup, i'll get on top of that

[REDACTED] (3/13/2023 03:27:10 PDT):
>ty

[REDACTED] (3/13/2023 03:27:33 PDT):
>conclusion: if we cant do that for sigma policies that informs our kill them + build a classifier

[REDACTED] (3/13/2023 03:27:56 PDT):
>and i think with litigation stuff there might me more regulation/specificity on sextortion stuff so we might need to build classifier under that

[REDACTED] (3/13/2023 03:28:58 PDT):
>ooh, interesting

[REDACTED] (3/13/2023 03:29:05 PDT):
>do you think we might need to build a classifier for sextortion ?

[REDACTED] (3/13/2023 03:29:44 PDT):
>completely aligned on this

[REDACTED] (3/13/2023 03:29:53 PDT):
>well, i think we might need to have a good way of proactively detecting sextortionist accounts

[REDACTED] (3/13/2023 03:29:55 PDT):
>except the classifier part

[REDACTED] (3/13/2023 03:30:04 PDT):
>is this regulatory thing? or why?

[REDACTED] (3/13/2023 03:30:04 PDT):
>depending on what comes from this legal discourse

[REDACTED] (3/13/2023 03:30:08 PDT):
>discourse

[REDACTED] (3/13/2023 03:30:13 PDT):
>i think its gonna come

[REDACTED] (3/13/2023 03:30:19 PDT):
>okay, let's chat more on that

[REDACTED] (3/13/2023 03:30:21 PDT):
>yep

[REDACTED] (3/13/2023 03:30:26 PDT):
>i didn't know sextortion was affected anyhow

[REDACTED] (3/13/2023 03:30:41 PDT):

[REDACTED] (3/13/2023 03:30:44 PDT):
>don't forget to update this mate

[REDACTED] (3/13/2023 03:30:51 PDT):
>(mate referring to status, not you)

[REDACTED] (3/13/2023 03:31:19 PDT):
>ahha

[REDACTED] (3/13/2023 03:31:20 PDT):
>thanks
