Report an Instagram user under the minimum age

We require people to be at least 13 years old to use Instagram. In some jurisdictions, this age limit may be higher. If you think this person is under the minimum age to use Instagram, you should report them. [Learn More](#)

Username of the account you'd like to report

This will help us take action on your report

Please provide the username of the account you're trying to report so we can investigate. Some people have the same name, so providing the Instagram username can help make sure we find the right person.

If you're reporting a user's account that was made with a false date of birth, and the user's age can be reasonably verified as under the minimum age in their region, we'll delete the account.

You will not get confirmation that the account has been deleted, but you should no longer be able to view it on Instagram.
