Hi,

I work on the Trust and Safety Team here at Facebook. I wanted to inform you that we reported NCMEC # 85611658 on a 26 year old male who appears to be enticing a 14 year old female to produce and share apparent CEI via private messages. Conversations indicate they may have met in person to engage in sexual activity [and appear to be within proximity.

Additionally, it appears that the 14 year old female engages in self-harm practices/ has suicidal ideation.

Let us know if your team or one of your affiliates plans on sending any legal requests into our Law Enforcement Response Team so we can stay on top of those requests.

Please feel free to reach out if you have any questions on these reports.

Kind regards,

FACEBOOK
